

March 25 to 27, 2019

Program Overview

Kaiser Permanente International's educational programs have attracted health care leaders from 82 countries. These programs aim to bring the Kaiser Permanente model to life for governments, health plans, and other international organizations that are striving to improve their health care systems. This program will highlight Kaiser Permanente's integrated care delivery system, physician leadership, health information technology, strategy and vision, population care management, and innovation.
